

Main claim
We should all follow
a vegetarian life style.

Reason R_1
Most mass meat-farming techniques
are torture to animals.

Reason R_4
Animal farming produces more
greenhouse gas emissions than
the world's entire transport system,
and these greenhouse gases are
causing a dangerous climate change.

Reason R_2
Animals feel fear and pain
like us. Mass meat-farming techniques
force animals living in them
to have an unnaturally
short, miserable and confined life.

Objection R_3
There are alternative ways to
breed animals. Grass-fed meat
comes from animals raised in
open grass pastures and not
confined to these cramped
living spaces.
