

Main claim
We all should change to
a vegetarian life style.

Reason R_1
Most mass meat-farming techniques
are torture to animals.

Reason R_4
The farming of animals produces
greenhouse gas emissions that
are causing a dangerous
climate change.

Reason R_2
Animals feel fear and pain
like us. Mass meat-farming techniques
force those animals to have an unnaturally
short, miserable and confined life.

Objection R_3
There is the alternative of
grass-fed meat, which comes
from animals that are raised
in open grass pasture and are
not confined to cramped
living spaces.
